

PERATION SADANIKETHAN

SADANIKETHAN
Sanctuary for Special Seeds

**Two decades and marching
forward**

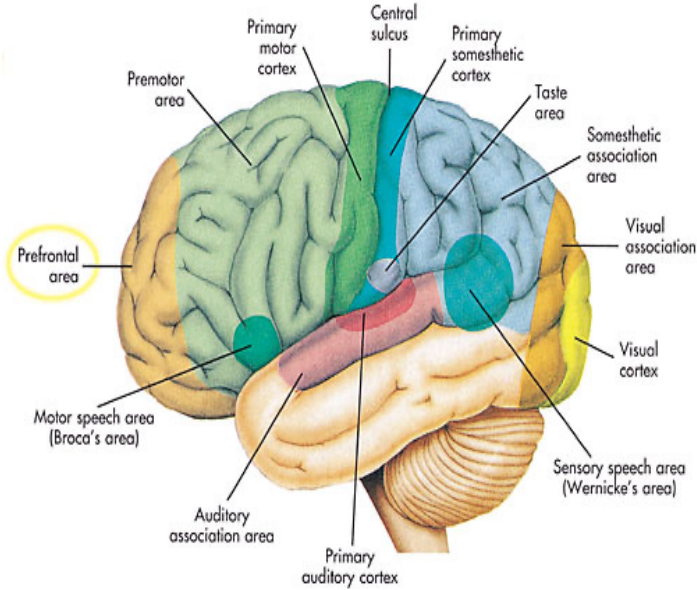

D.O.A.S.T.
Integrated therapy
Center for AUTISM

Since 2003, DOAST Integrated Therapy Centre for Autism [DOAST ITC] is clinically proving that the Brain in Autism is not Hardwired, and it can be Rewired to independent functional capacity.

SADANIKETHAN is the ideal ecosystem for Autism Management & It provides comprehensive answer for the parental anxiety,
‘What is the plight of my child after me’

நோய் நாடி நோய் முதல் நாடி அது தணிக்கும் வாய்நாடி வாய்ப்பச் செயல்.

We understand Autism on the molecular basis and treat it biologically through SAAP & RESAAP

- In Autism the functional areas are **PRESENT** but **DORMANT** due to inflammation.
- We treat the inflammation Biologically through SAAP & RESAAP 'OUTPATIENT treatment methodology' and **ACTIVATE** brain into functional coherence.
- Coherence of Functional areas of the brain improves the Behavior and Cognition to Achieve Independent living skills ideally before the age of 18.

**Molecular
Denominator
Lead**

‘Decreased connectivity is at the heart of autism’.

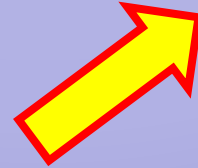

Fairly close regions of the brains involved in motor tasks have difficulty coordinating activity.

It makes sense that social and communication skills are greatly impaired, as they involve more complex synchronous coordination between more distant areas of the brain.

Our hypothesis..

Down stream inflammation

*Dietary or environmental
triggers,
Gut micro biome
systemic inflammatory
cytokines on a chronic basis*

Upstream
molecular
unrest

Synaptic
connectivity
affected in in
susceptible
individuals.

**- Our Clinical Expertise -
2003- 2026
Two decades and
continuing**

**OUR Unique
Therapeutic
Concept**

SAAP
[Sadanikethan Autism Amelioration
Protocol]
RESAAP
[REsidential Sadanikethan Autism
Amelioration Protocol]

**Diet regulation with
Herbal supplements,**

Yoga,

**Oleation therapies,
Lifestyle changes.**

**Applied with modern
medical
understanding**

Unique 'SADANIKETHAN' treatment methodology

- 1.Inclusion of the NEW child for SAAP is done at inclusion & review camp on appointed days EVERY MONTH throughout the year.
- 2.Inclusion of NEW child in SAAP is done after a detailed assessment [Constructed on the principle of CARS] by the Professional TEAM.
Participation of Mother and Father is insisted during this initial assessment.
- 3.This is followed by detailed explanation of the Two decades old BIOLOGICAL APPROACH of SADANIKETHAN mission [Which is value added DOAST Integrated Therapy].
- 4.After assessment – Dr.N.P. Karthikeyen spends time to clarify any further relevant/ Valid doubts in the minds of Parents.
- 5.After this **process of education and empowerment of the parents on the BIOLOGICAL APPROACH**, Informed Consent taken and the supplements are handed over.

6.This is the start of LEVEL 1 of SAAP for the child.

7.From Level 1 to Level 3 the SAAP protocol is spread over 16 weeks. This is totally an outpatient BIOLOGICAL module.

8. After completion of Level 3 of SAAP – Level 4 is protocol is carried out at VVN NCC which spans TWO MONTHS.

9. After inclusion into treatment, PARENTS are inducted into the WhatsApp group of parents and professionals.
- 10.Weely **WhatsApp TELE-CONFERENCE** is conducted to share the progress of their children and to learn.
11. For more than 15 years through Such **TELE DISCUSSIONS** parents have learnt techniques to benefit their children.
12. Physical/ Clinical evaluation of the improvement in BEHAVIOR and INTELLIGENCE of the child is at VVN center once a month.

13. At the conclusion of the Level 3 of SAAP, a complete assessment will be done by the professional team at VVN NCC to take the child forward into the Level 3 A & Level 4 treatment.

The following step charts explain the TREATMENT plan with cost for the FIRST SIX MONTHS after diagnosis and inclusion at VVN NCC.

The plan for the NEXT six months would be conceptualized based on the weekly/Monthly prognostic data obtained and analyzed.

LEVEL -1
(0 to 5 WEEKS)

ASSESSMENT/ EDUCATION
and INCLUSION

SUPPLEMENTS GIVEN

SGTP SUPREME. [1no]
SANGAMIRTH [1 no]
AAA-VCO [3 nos]
SGD- HEALTH RESTORE
ELIXIR [1 No]
PILLOW
MAT
SUGANITHRA [1 no]

Approx Cost - ₹9000

LEVEL -2
(6 to 9 WEEKS)

SUPPLEMENTS GIVEN

SGTP SUPREME. [1no]
SANGAMIRTH [1 no]
[SGM EOD SKD]
AAA-VCO [3 nos]
SUGIRTHAM [1no]
SUGANITHRA [1 no]

Approx cost-₹5000

LEVEL -3
(10 TO 16 WEEKS)

SUPPLEMENTS GIVEN

SGTP SUPREME. [1no]
SANGAMIRTH [1 no] -
[SGM EOD SKD]
AAA-VCO [3 nos]
SUGAGNANAM [1 no].
SG KALPA BATH [1 no]
HERBAL SOAP
POWDER [1no]
ZEERO PAIN [1no].
SUGANITHRA [1 no]
Approx Cost - ₹8000

LEVEL 3 A & 4 [17 to 24 WEEKS]

RESAAP [Oleation] INCLUSION AFTER ASSESSMENT
SADANIKETHAN Oleation therapy is spread across 48 days
[One Mandalam] 6 days x 8 weeks.

Treatment technique and the supplements will be decided by the
AAA professional Team.

Outpatient & Residential Inpatient plans are possible
Approx Cost - ₹75000 [For outpatients]

Inpatient – Food per day Child + Mother INR 1150
Stay per day x 60 days – [₹ 69000]

Total Tentative Expenses

SAAP + RESAAP - [One semester] Six months.

Outpatient model – ₹ 97000

Inpatient Model ₹ 166000

As on May 2026. [May vary with time]

Assessment of Clinical benefits obtained through Integrated Therapy.

- ❖ GI Tract,
- ❖ Respiratory,
- ❖ Sleep,
- ❖ Morbidity,
- ❖ Eye contact,
- ❖ Emotions,
- ❖ Behavior,
- ❖ Cognition.

- ❑ Eye contact,
- ❑ Play,
- ❑ Communication,
- ❑ Empathy
- ❑ Generalization

Are the
‘THE PHYSIOLOGICAL MARKERS’
chosen to assess and quantify
behavior and cognitive
improvement.

The aim of “Treatment” is not cure.

It is amelioration of symptoms to improve behaviour without blunting the cognition.

Our focus is development of a self-supportive individual by the age of 18.

The goal is to effectively address the parental anxiety
